Instructions for school

Confirmation of enrolment and study period information

This personalized Confirmation of Enrolment form must be completed by the student's school to confirm that the student is enrolled in full-time studies and attending classes. It can also be used to update the student's study period information.

It's required before each installment of funding can be released to the student. Generally funding is released in two installments so you could expect to complete one at the start of the student's study period (e.g., September) and then again about halfway through the student's study period (e.g., January).

The Confirmation of Enrolment form also ensures that any of the student's previous loans are kept in interest-free status so that the student doesn't have to repay them while in school.

Instructions

This is a personalized form that contains information about the student and their study period.

1. Review the student's study period information and either indicate "No change" or provide an update. A change to this information may result in the application being reassessed. If there is any change in funding, the student will be advised.
2. Complete the Confirmation of enrolment and declarations section.
3. The form must be received by the ministry no later than 30 days before the end of the student's study period.

Note: while this form is made available about 25 days in advance, the earliest it can be completed is 15 days before the start of the student's study period. Forms that are completed more than 15 days before the student's study period will not be accepted.

Where to send the form

Send the completed and signed form to the ministry at the address below. Or, if instructed by the student, return the form to the student so that they can upload it online through their OSAP account.
